Lifting the grey

There are a number of evergreen designs in the Oris collection. One of them is the Divers Sixty-Five, a retro piece that's descended from our first diver's watch, created in 1965. The next iteration of the timeless form is this piece with a grey gradient dial, which stands out because of the high-contrast turquoise lume applied to the watch's hands, hour markers and triangle dot at 12 o'clock. This glows a bright turquoise green in low light conditions such as those found underwater, but even in daylight, the contrasts in the materials and colours give extraordinary clarity to the dial. Beyond these distinctive elements, the model is the familiar, reliable 40mm stainless steel Divers Sixty-Five. In place are its uni-directional rotating bezel, screw-in security crown and water resistance to 10 bar (100 metres). The movement is a Swiss Made automatic mechanical, and it comes on a black leather strap or a stainless steel bracelet with a folding clasp.

Divers Sixty-Five, 40 mm

Ref. No. 01 733 7707 4053-07 5 20 89
01 733 7707 4053-07 8 20 18

Case

Material Multi-piece stainless steel case, uni-directional rotating bezel

Size 40.00 mm, 1.575 inches

Height 12.8 mm

Top glass Sapphire, domed on both sides, anti-reflective coating inside

Case back Stainless steel, special engravings, screwed

Operating devices Stainless steel screw-in security crown

Water resistance 10 bar (100 m)

Interhorn width 20 mm

Movement

Number Oris 733

Dimensions 25.60 mm, 11½''

Functions Centre hands for hours, minutes and seconds, fine-timing device and stop-second

Winding Automatic

Power reserve 38 hours

Vibrations 4 Hz (28'800 A/h)

Jewels 26

Dial

Design Grey gradient dial

Luminous material Indices and hands with turquoise Super-LumiNova®

Indices Applied

Strap

Material options Black leather strap with stainless steel buckle, or multi-piece stainless steel bracelet with folding clasp
